

## Australia v North West England

2-3 August 2010

### Southport

The weather began damp and chilly but was dry and warmer for the remainder of the day with little sun later in the afternoon. The 5 lawns were of good quality but rather slow – about 10 seconds. To accommodate 7 players per side, the match format was flexible and consisted of a round of doubles first up followed by as many singles as possible. The Australian playing 6 was augmented by one reserve (Greg Fletcher), and Malcolm Fletcher. The NW England team was augmented by Steve Jones for the doubles on day 2 (he was born there!).

### Results

#### Day 1

Highlights for Australia from the first day included Greg's first ever quadruple peel, Marty's 3 tpo's, and 11 peeling finishes. Malcolm almost completed a quintuple peel but missed the pegout.
