

Croquet Australia Handicapping Circular

Modification to Handicapping Regulations (Association Croquet) Regulation 4

At the ACA Executive meeting in November 2008 it was determined that the step limitations surrounding non-automatic changes of a player's Association Croquet handicap be removed. Accordingly Regulation 4.1 now reads:

4.1. In some situations, the AHS is unable to respond quickly enough to changes in a player's ability. These situations include:

4.1.1. The player plays very few competitive singles games

4.1.2. The player's play improves or deteriorates so rapidly that the AHS cannot keep up.

In these situations, Tournament Handicappers and Club Handicappers are empowered to change players' handicaps.

This change is effective immediately.

The regulations on the web site have been updated accordingly and are now dated December 2008.
