

Croquet Australia

Handicapping Regulations (Golf Croquet)

Effective: 15 March 2010

These Handicapping Regulations apply to all Golf Croquet competitions conducted within Australia and all accredited international matches.

The sections of the Regulations are:

Introduction	1. Definitions 2. Handicaps
Player Responsibilities	3. Automatic Changes of Handicaps 4. Non-Automatic Changes of Handicaps 5. Players
Official Responsibilities	6. State Handicappers 7. Club Handicappers 8. Tournament Managers 9. Tournament Handicappers
Other Conditions	10. New Players 11. Overseas Players 12. Handicap Card Use When Playing Overseas 13. Players not Complying With These Regulations
Further Guidelines	The Official Golf Croquet AHS Card Aim of the System Index Points Handicap Changes Players whose index falls below 0 Players withdrawing from an Event

The Regulations

1. Definitions:

- 1.1. **AHS Card** means the Automatic Handicapping System Card issued by Croquet Australia. The cards are available on the Croquet Australia website for printing as needed.
- 1.2. **A State, Club or Tournament Handicapper** is an Official Handicapper who has been elected or appointed to that position by the agreed procedures of the relevant State or Club, or by Croquet Australia.
- 1.3. Golf Croquet **players** in these Regulations are members of croquet clubs in Australia who play Golf Croquet and are affiliated (through their Club and State) to Croquet Australia. They are herein referred to as players. Players affiliated with more than one club or more than one state will only have one ID number. If a player moves state they will be allocated a new ID by that state and their previous ID will be available for re-use.
- 1.4. A **tournament** is an Official Tournament organised and run by Croquet Australia, State Association or Club. A tournament may consist of a single event or several events (eg. Men's Singles, Women's Singles, Open Doubles).
- 1.5. An **event** is a single competitive event, open to a defined range of players, and expected to have a single winner. Social events are excluded. An event may be a part, or independent, of a tournament.

- 1.6. A match is either a single game or best-of-X games.
- 1.7. **Competitive singles games** are those which are part of an event. They are governed by Tournament Regulations and the WCF Golf Croquet Rules, and include but are not limited to
 - 1.7.1. Tournament games
 - 1.7.2. Interclub, interstate and international games; and
 - 1.7.3. Club competitions
- 1.8. A player's **handicap** is a number used to determine the number of extra turns to be given or received in handicap play (Rule 16). It may also determine whether the player is eligible for a particular event.
- 1.9. A player's **index** is a number recorded on the AHS card, which changes after each competitive singles game. When the index changes sufficiently, it will trigger a change in handicap.

2. Handicaps:

- 2.1. These Regulations govern the administration of player handicaps under the WCF Golf Croquet Rules.
- 2.2. Handicaps for players shall be on a scale with a range from 0 to 12 with steps as set out on the AHS Card.
- 2.3. Every player shall have an official handicap determined as below in paragraphs 3, 4 and 10.
- 2.4. All players will be given an initial handicap by their Club Handicapper when they start playing. It is expected that the initial handicap will be determined using the procedures outlined in the Appendix to the WCF Golf Croquet Rules. Thereafter their handicap will change as described in paragraphs 3 and 4 below.
- 2.5. In handicap play the handicap shown on the card at the start of that game is used to determine extra turn entitlement.
- 2.6. For non-handicap singles games players use the handicap shown on their card at the start of the game to determine the index change after the game.
- 2.7. Any player wishing to enter singles or doubles competitions or play competitive singles or doubles matches shall be entitled to do so only if they comply with these Regulations.

3. Automatic Changes of Handicaps:

- 3.1. The Automatic Handicapping System (AHS) is the primary method by which handicaps change.
- 3.2. Whenever players play a competitive singles game, they update their AHS card according to the instructions on the card. In all cases this will result in a change in their index. When the index changes sufficiently that will trigger a change in the player's handicap.
- 3.3. Indexes do not change as a result of doubles play, except as in paragraph 4.
- 3.4. A player's handicap will change immediately the index has reached or passed the trigger point for a new handicap.

4. Non-Automatic Changes of Handicaps:

- 4.1. 10 competitive singles games over a six month period will be, in most circumstances, sufficient to allow handicaps to change automatically.
- 4.2. In some situations the AHS is unable to respond quickly enough to changes in a player's ability. These situations include where:
 - 4.2.1. The player plays very few competitive singles games.
 - 4.2.2. The player's play improves or deteriorates so rapidly that the AHS cannot keep up.In such situations handicappers are empowered to change players' handicaps. Otherwise players' handicaps should be left to change automatically.
- 4.3. In making these changes handicappers must be guided by considering what handicap the player needs to be on to compete effectively with other players who are playing sufficient competitive singles games for the AHS to be effective.
- 4.4. Non-Automatic changes are not made during a match that is the best of a number of games.

5. Players shall:

- 5.1. Complete an entry on an official Croquet Australia Golf Croquet AHS Card for each competitive singles game played.
- 5.2. Maintain an accurate record on their AHS cards of all competitive singles games they play and report their current handicap and index to Tournament or Competition Managers at the start of an event.
- 5.3. If their handicap changes as a result of any game played during an event have the Official Handicapper check and sign their card confirming the change before playing any other singles games or as soon as practical.
- 5.4. Immediately advise their Club Handicapper of handicap changes.
- 5.5. Show their official AHS card to Tournament Managers and Handicappers on request.

6. State Handicappers shall:

- 6.1. Assist Club Handicappers in understanding the handicapping system and these Regulations.
- 6.2. If required, liaise with Club Handicappers when they are making non-automatic handicap changes to ensure that a uniform standard applies throughout the State Association. This is particularly important when the player is playing in competitive events which may not qualify for AHS inclusion.
- 6.3. Where operating as a Tournament Handicapper, fulfil all the duties as in paragraph 9.
- 6.4. Carry out any other AHS-related functions as required by their State Association.

7. Club Handicappers shall:

- 7.1. On a regular basis review and make any required non-automatic handicap changes for players within their club and notify the State Handicapper of the handicaps of these

players when the changes are made or as required by the State Association. Any such changes must be in accordance with paragraph 4, and shall be effective immediately.

- 7.2. Check and sign AHS cards of players whose handicaps change automatically as a result of games played in events. Such changes will be notified to the State Handicapper as required by the State Association.
- 7.3. Observe the play of club members during club or interclub competitions.
- 7.4. Provide a letter to accompany a club member who is about to enter an external event and is improving rapidly, addressed to the Tournament Manager, suggesting that the player's handicap should be kept under review.
- 7.5. Keep a record of the current handicaps of all players within their club and provide assistance to those players requiring help in maintaining an accurate official AHS card. Certify, and carry-over, the handicap and index points when a player begins a new handicap card.
- 7.6. Assign handicaps to new players in accordance with paragraph 10 below.

Guidelines:

- *In making non-automatic handicap changes, Club Handicappers shall use the handicaps of other players with similar skills as benchmarks.*
- *Club Handicappers will not need to seek approval from elsewhere for any decisions they make about non-automatic handicap changes. However, advice may be sought from the State Handicapper if the Club Handicapper wishes, and must be sought if the player is going to play external competitive games that may not qualify for AHS, e.g. interclub doubles.*
- *Clubs may require that non-automatic handicap changes for club members be determined by committee and in this case the Club Handicapper shall comply with the committee decisions.*

8. Tournament Managers shall:

- 8.1. Cooperate with the Tournament Handicapper to check that player handicaps are accurately recorded at the time they commence play in an event.
- 8.2. At the end of an event record on an AHS1 Form the details of any player whose handicap has changed during the event and immediately forward to the State Handicapper if required.

9. Tournament Handicappers shall:

- 9.1. At the start of an event assist the Tournament Manager in checking and accurate recording of player handicaps.
- 9.2. Be responsible for all handicapping issues during an event.
- 9.3. Sign off the AHS cards of all players whose handicaps change during an event.

Guideline:

- *When signing off a card for a handicap change a Handicapper should check the calculations leading to the changes in handicap and ensure that recent games have been properly entered on the card.*

- 9.4. During events have discretion to make non-automatic handicap changes for any player in accordance with paragraph 4. Any such changes shall be effective immediately.
- 9.5. Record and initial on a player's card non-automatic handicap changes as they are made.
- 9.6. Ensure that an Assistant Manager or other person is designated to perform the duties of Tournament Handicapper at subsidiary tournament venues.

10. New Players:

- 10.1. Club Handicappers shall assess each new player when they have joined the Club as an affiliated player and are admitted to general club play, and assign them a handicap based on the level at which they are best likely to compete using the guidelines as outlined in the Appendix to the WCF Rules of Golf Croquet.
- 10.2. Their starting AHS index will be the one corresponding to their starting handicap. The Club Handicapper must sign the card after assigning the initial handicap.

Guideline:

- *To assist Club Handicappers in their assessment, they should encourage the use of AHS cards by new players for friendly games before they begin competition.*

11. Overseas Players:

- 11.1. Overseas players will be assigned an initial handicap based on the handicaps of Australian Players of similar World Ranking or assigned an initial handicap based on the guidelines as outlined in the Appendix to the WCF Rules of Golf Croquet.
- 11.2. This will be calculated and assigned by the Tournament Handicapper of the first event they enter.
- 11.3. Following that assignment, they shall be treated as any Australian player to whom the AHS applies.

12. Handicap Card Use When Playing Overseas:

Croquet Australia, the New Zealand Croquet Council and the U.K. have agreed to allow Australian cardholders to use their Australian cards when playing in overseas tournaments.

- 12.1. When playing in the U.K. players use their cards exactly the same as in Australia.
- 12.2. Before leaving to play in New Zealand, contact the Australian National Handicapper who will assign a NZ handicap to use while away.

13. Players Not Complying With These Regulations

- In the first instance, the player is to be informed that it is a requirement under the National Handicapping Regulations for a Croquet Australia AHS card to be carried and filled in and that it has been noted that this has not been followed. The incident will be reported to the National Handicapper.
- If the behaviour is repeated at a subsequent event, the player will be reminded once more and informed that a future tournament entry may be rejected. The incident will be reported to the National Handicapper, who will report it to Croquet Australia.

FURTHER GUIDELINES.

The AHS card

- *Instructions for use of the card are printed on it.*
- *Handicap cards can be printed from the Croquet Australia website.*

Aim of the system

- *The aim of the Automatic Handicapping System is to ensure that two Players in a handicap game have an equal chance of winning when they play each other.*

Index Points

- *Each player maintains an AHS card, which records the result of every competitive singles game played and the index points added or subtracted.*
- *Index points increase after each win and decrease after each loss. The winner adds the number of points to their index as shown on the AHS card for the handicaps of the two players involved. The number of points depends on whether the game is played handicap or not.*
- *For handicap games the number of points is always 10.*
- *For non-handicap games the number of the points varies depending on the handicaps of the two players.*

Handicap Changes

- *Winning games and thus accumulating index points can result in a player reaching or passing the "trigger point" for a handicap different from the player's current handicap, at which time their handicap will reduce.*
- *Losing games and thus losing index points can result in a player reaching or passing the "trigger point" for a handicap different from the player's current handicap, at which time their handicap will increase.*
- *Handicaps will change:*
 1. *if the index has reached or passed the trigger point for a handicap different from the player's current handicap at the end of a game*

or

 2. *if the Tournament Handicapper makes a non-automatic change to the handicap of a player.*

Players whose index falls below 0

Players whose index reduces to 0 do not drop to lower index values. 0 is the lowest index possible.

Players withdrawing from an Event

For handicapping purposes, all games completed or started are entered on the cards of the two players concerned. If withdrawal occurs during a game, that game should be recorded as a loss to the person who withdraws.
